Elon Musk's baba mama Ashley St. Clair waded into the dramatic fallout between Elon Musk and **Donald Trump** as she asked the president if he 'needs any breakup advice.' St. Clair spoke out as she is in the midst of a custody battle with Musk for their son, and she previously fumed **at the billionaire to DailyMail.com when he slashed her child support in half.**

Social media erupted on Thursday as **Musk** turned on the president with a flurry of insults over his 'Big Beautiful Bill', **leaving the internet stunned and waiting to see what he posts next.**

X users poked fun at the fight between the world's richest man and the president, with some memeing Musk as **Quentin Tarantino** character Kill Bill over his attempts to end the Republican legislation.

Others ridiculed the billionaires and compared them to bickering teenagers, and joked that Trump would add Musk to his deportation lists.

The public fallout between Musk and Trump stunned Washington **DC** and sent Republicans scrambling, but some saw the funny side as political journalist Michael Tracey chimed in with his own prediction.

'At this rate Musk might receive a one-way ticket to El Salvador,' **he said** on X.

Many had predicted that Trump and Musk's rosy bromance wouldn't last long, as some pointed to betting markets on when they would turn on each other.

Bettors heavily favored a fallout before July 1, 2025, less than six months after Musk joined Trump's administration as a special advisor.

Political firebrand Laura Loomer also waded into the controversy, saying she had 'been on the hill all day and it's all anyone is talking about.'

'Will be interesting to see what Republican lawmakers do now,' she said.

'I know law makers who are asking if they should side with President Trump or Elon.'

After Musk sent a raft of insults at Trump including claiming he was the sole reason Trump won the 2024 election, the president fired back on Thursday afternoon.

'Elon was "wearing thin," I asked him to leave, I took away his EV Mandate that forced everyone to buy Electric Cars that nobody else wanted (that he knew for months I was going to do!), and he just went CRAZY!' he said on Truth Social.

He added in a follow up post: 'The easiest way to save money in our Budget, Billions and Billions of Dollars, is to terminate Elon's Governmental Subsidies and Contracts.

'I was always surprised that Biden didn't do it!'

Musk had publicly endorsed Trump on the heels of the July 13th assassination attempt in Butler, Pennsylvania and poured around \$290 million of his fortune into the Republican's campaign.

The billionaire also joined Trump on the campaign trail when he returned to the site of the Butler shooting in early October, a month before Election Day.

Musk's claim that Trump wouldn't have won the election without him appeared to strike a chord with the president.

Trump said he likely still would have won the key state of Pennsylvania without Musk's assistance, partly because Kamala Harris didn't choose the state's governor, Josh Shapiro, to be her running mate.

Even with Shapiro on the Democratic ticket, Trump claimed, 'I would have won Pennsylvania, I would have won by a lot.'
