

Apple's AirPods Catch Fire in Owner's Ears, Eventually Explode And do ALL Lithium Ion Batteries

Start searching

DEMAND THAT LITHIUM ION BATTERIES BE OUTLAWED!

Lithium ion batteries: Cause wars in the Congo, Afghanistan and Bolivia; are owned by e CIA bosses; mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to say all other forms of energy; are owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their danger Apple products with lithium ion batteries have been exploding and setting people on fire over time the chemical dendrites inside each battery grow worse and increase the chance of explosion over time - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam; the Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL!

"My ear lobe could've been burnt," terrified Apple customer says after one of the two AirPods blew up

Feb 9, 2018 08:43 GMT • By Bogdan Popa • Share:

If there's something we learned in the last couple of years about smartphones, it's that we should always keep an eye on them, especially when charging, as the
