Contact the Silicon Valley Vc's to help with AFGHANISTAN DISASTER

[AFGHAN-GRL](#)

By now, everyone is familiar with the mineral and cleantech scandal known as [AFGHANI-SCAM!](#)

A group of the [Silicon Valley VC's](#) are directly [implicated](#) in the creation of, and complicity in, the operation of this scandal.

It cost Afghans, and the U.S. part of their economy.

It created rife corruption.

It cost Afgan's and U.S. soldiers their lives.

It destroyed **Fisker, Solyndra, A123, Abound, Enerdel** and a host of insider crony companies taking U.S. taxpayer dollars along with them.

With all that they have done to the poor people of Afghanistan, now comes [the loss of thousands and thousands of lives in a horrific landslide catastrophe.](#)

The **Silicon Valley VC's OWE Afghanistan** and it is time for them to pay up.

An international alliance of organizations are asking the public to contact the following VC's and **STRONGLY** request that they **each** donate at least \$100 Million (They can each easily afford it) to **The International Red Cross for Afghan Relief** at:

<http://www.icrc.org>

Please help with this horrible tragedy. No resources have been left in this region for local support.

You can contact each of the VC's at the contact information below:

[AFGHAN-LANDSLIDE](#)

Was it a "Bomb" or a "Landslide" or both? Were corrupt Afghan officials from [Afghani-Scam](#) trying to cover tracks?
What really happened? Was there lithium and indium ore in the area? Were there mines in the area? Confusion reigns, stories conflict.
