Silicon Valley Prostitutes: THE LAST STAND

Google executives hired more than 1000 of them this year. They hire them to sway politicians, to get contracts and to show off their power.

Yahoo executives and investors hired hundreds of them to attend "corporate parties".

Kleiner Perkins Venture Capital Firm sent hundreds of them to institutional fund managers, to get stock buys, and personally hired hundreds for their own staff. An ex-executive secretary from Kleiner said that male members kept a database, on the in-house intranet, rating the hookers by skills. Ellen Pao famously sued Kleiner for Sex Abuse and disclosed their seedy world.

BUT

The heat is on. Dead Google executives and dead venture capitalists with Silicon Valley Prostitutes near their dead bodies have sent a chill across Silicon Valley's misogynistic world.

The Craigslist whore pages were shut down by the feds. Myredbook and SFRedbook were wiped out by raids. Eros.com, SeekingArrangements.com, AshleyMadison.com and Lovings.com are under investigation and about to go. The databases of all of those sites have been handed over to the feds and those databases are being cross-referenced to every executive in Silicon Valley.

The Silicon Valley prostitutes have all moved to Match.com and OKCupid.com (founded by Gary Kreman, owner of Sex.com) and now a multi-billion dollars front conglomerate. You can tell the hookers on Match.com and OKCupid.com by their overly sexy profile pages, glamor shots and "codewords" (ie: "hobby", "hobbyist", "finer things", "woman of quality", "gentleman", etc.) . A Match.com whore expects compensation in gifts and rent as well as outright cash. The NSA records every text, transaction, email and phone call with them because Silicon Valley executives are manipulating Washington Politics, so they count as "targets". The Square App is also tracked for hooker transactions, as well as Paypal.

Seeing demand, and lof's of girls who want to get out of the Ukraine ASAP, the Russian mob is flying charter jets full of hot young prostitutes, or buying tickets for them, to restock Silicon Valley.

Why are the hookers such a big thing in Silicon Valley? Because all of the VC's and CEO's are selected by all of the other executives because of their **Stanford fraternity house training** and arrogant **attitude affectations**. As the world saw, from the Snapchat CEO's emails: All of these men see women as accessories, arm candy, trophy wives and tools for their abuse or pleasure. That is how Stanford fraternities train them. They all wear the same khaki pants. They all take their Hookers to the Rosewood Hotel (Which they built just for that purpose). They all cluster in a line in offices on SandHill Road in Palo Alto. They all go to the same restaurants and sports bars. They are all sheep-like followers of Greek male arrogance social training. None of them need to hire a girl for sex: They have lots of cash, expensive Tesla's and nice homes. They hire them to control a living human and feel the power of that dominance.

They hire hookers in order to prove that they can control people like puppets, especially when they are the most vulnerable: during sex. They hire hookers in order to brag to the other tech executives about their power and dominance. As one Silicon Valley Escort named "Donna", said: "They do not pay us for the sex, **they pay us to get out afterwards**. That is what is valuable to them, **that we are disposable**." Some women, online, see Alix Tichelman, the escort who killed the Google Executive, as "The Angel of Death" and applaud her for taking out "The Silicon Valley Scum".

Certainly Silicon Valley does not hire women for anything else. Congress is now investigating the fact that Silicon Valley hires the least number of women and blacks, to work in their offices, than any other region in America. Silicon Valley is not just misogynistic. It just hates women unless they are being objectified. **Ironical that all of Obama's money comes from a place that hates women and blacks, wouldn't you say?**

The Silicon Valley Prostitution Scandal is just the tip of a far darker iceberg, the bulk of which is hiding under an ocean of corruption, power mongering and political shenanigans.

Do we need to open more whore-houses or shut down more fraternities?

Send in your links and let's discuss..
